

# ALEJO DIAZ

email: [xlejud@gmail.com](mailto:xlejud@gmail.com)

web: [alejo.com.ar](http://alejo.com.ar)

idioms: Spanish (native) and English (intermediate).

I usually solve problems easily and I like to learn new technologies. I do well as a team.

## Knowledge area:

- **Docker** containers.
- **Kubernetes**.
- Infrastructure in code (**Terraform**)
- Red Hat Certified System Administrator (**Linux**) | 190-306-829
- **Continuous Integration/Continuous Delivery**.
- **Git**.

## Experience:

### **FRA UTN - Communication center (September 2019 – Present)**

Repairs of desktops or laptops (Windows, Linux or macOS). Installation from 0 of wired/wireless networks and their connections. Technical support.

## Education:

### **E.E.T N°5 J.F.K Lanús - *Programming Technician (March 2012 - December 2019)***

I learned about networking, PHP language (basic), web page design, SQL database, leading a group of 5 people, using Git version control, etc.

## Projects:

- I learn and experiment with new technologies and apply them in cloud environments (GCP and AWS) or local in some cases. I use Terraform to keep my infrastructure in code.
- I made a local Plex server with Docker to watch movies and series, both local and online.
- I did an order delivery system for my school buffet.

## Hobbies:

- Listen and compose music.
- I find out about cloud computing, open-source and about Linux in general.
